

Appl. No. : 10/054,399
Filed : January 21, 2002

REMARKS

The Sequence Listing submitted herewith is identical to the Sequence Listing submitted on December 10, 2002. The Raw Sequence Listing Error Report mailed July 14, 2003 did not include a marked-up copy of the previously submitted Sequence Listing. In response to a telephonic inquiry by the undersigned to Examiner Fredman requesting a marked-up copy of the previous sequence listing, Examiner Fredman kindly faxed a copy of the marked-up sequence listing. This marked-up copy appeared to be the same as an Error Report mailed on October 10, 2002 from the Patent and Trademark Office. In a telephonic interview with Examiner Fredman, he suggested resubmission of the Sequence Listing of December 10, 2002 as there was no record of such a submission in the file.

Subsequently, on the morning of July 25, 2003, a voice message was received from Mark Spencer at the Patent and Trademark Office CRF Submission Help desk stating that the Sequence Listing of December 10, 2002 had been received and was acceptable. However, in order to insure that the record is clear, Applicants resubmit the sequence listing of December 10, 2002 herewith.

This response to the Notification of Missing Requirements brings the patent application into compliance with the Sequence Listing Disclosure requirement of the USPTO. Enclosed herewith are: (1) a paper copy of the Replacement Sequence Listing, and (2) a computer readable version of the Replacement Sequence Listing. The Response to Notice to Comply directs entry of the paper copy of the Sequence Listing into the application. In view of the foregoing, the application is believed to fully comply with the Sequence Listing Disclosure requirements.

VERIFICATION UNDER 37 C.F.R. § 1.821 (f) & (g)

All of the sequences in the attached Sequence Listing were included in the application as filed. Pursuant to 37 C.F.R. § 1.821 (g), no new matter is being added herewith. As required under 37 C.F.R. § 1.821 (f), I hereby verify that the data on the enclosed disk and the paper copies of the Sequence Listing are identical.
